Restriction

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

I – Claims 1-11 and 16-26 are directed to embodiment I corresponding to Figs. 1-4, 9, and 13-14 of the Applicant's disclosure.

II – Claims 1-10, 12-13 (assumed), 14-27, 31, 34, 42, 44, and 48 are directed to embodiment III corresponding to Fig. 4C of the Applicant's disclosure.

III – Claims 1-10, 12-26, 28-30, 32-33, 35-37, 41, 43, 47, 49-50, and 53 are directed to embodiment IV corresponding to Figs. 7 and 11 of the Applicant's disclosure.

IV – Claims 1-10, 14-26, 38-40, 45-46, and 51-52 are directed to embodiment V corresponding to Figs. 15-16 of the Applicant's disclosure.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1-10 and 16-26 appear generic.

Applicant is advised that a response to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a generic claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are

added after the election, applicant must indicate which are readable upon the elected species. MPEP §809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103 of the other invention.

Complete Requirement

2. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Should applicant traverse on the ground that the groups are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the groups to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103 of the other invention.

Joint Inventors

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).
